

Professional Recall Management Solutions

Reduce Liability | Save Time & Money | Consumer Disclosures
Accurate & Timely | Daily Reporting | Alerts & Auditing

Make informed purchase decisions by knowing the recall status *before* you buy!

BEFORE:

Vehicles at Acquisition

Off-brand vehicles with open recalls cost money and add time getting front-line ready. Open recalls on in-brand vehicles generate warranty reimbursement revenue. Know before you buy with Recall Status Now!

Recall Status Now! SM

On-demand, accurate recall status lookup — in mobile app and browser-based web service.

Reduce your liability by knowing the recall status on your inventory *every* day!

DURING:

Vehicles in Inventory

Dealers put themselves at serious risk of liability when they sell vehicles with un-repaired safety recalls. Dynamic Recall Management monitors your inventory with the Industry's most accurate, timely and comprehensive recall status information.

Dynamic Recall Management SM

Daily recall status reports, recall management tools and consumer recall status disclosure at sale.

Generate warranty reimbursement revenue from customer vehicles *anytime!*

AFTER:

Sold Customer Vehicles

Your customer inventory is a gold mine of potential recall repair revenue! Generate net-new service revenue and increase customer safety, customer engagement and CSI with Customer Recall Revenue.

Customer Recall Revenue SM

VIN processing of sold customer vehicles for open safety recalls.
